-

Experience & Projects

2021 – CURRENT

Development Contractor / Equityblue, Inc. UT

Made finding financial data simpler by creating multiple Discord embeds in NodeJS that outputs data from a financial API and using the Discord API to create and publish the data to a dedicated server channel.

Relevant Technologies: NodeJS, Discord API, Financial Modeling Prep API

2021

Leonardo Museum Membership Portfolio / Westminster College, UT

Worked in a team of developers and designers to create a membership portal for the Leonardo Museum. This was part of a Web Application course through Westminster College.

Relevant Technologies: Django, HTML, CSS, JavaScript

2019

Video Game Design / Granite Technical Institute, South Salt Lake UT

Worked in a team of developers to create a First-Person Shooter Video Game for the Technology Student Association (TSA) & Skills USA. My team invested 1500 hours into this project. We took a consecutive 2nd place for the Utah TSA state competition and 1st place for the Utah Skills USA state competition. This win allowed us to compete at the national competition, held in Louisville, Kentucky.

Relevant Technologies: C#, Unity

Education

FALL 2019 - PRESENT

Computer Science/ Westminster College, Salt Lake City UT

3.8 GPA, Senior (Graduating Fall 2022).

2019

High School Diploma / Cottonwood High, Murray UT

3.9 GPA, 4.0 CPA, 25 ACT score, I participated in many technology classes throughout high school.
